Approach

Platform Building

Students who join Zeal ; may be from different academic cultures or have passed tenth from various boards such as ICSE/CBSE/SSC. One week's orientation programme conducted by our teachers enables them to reach a common level from where they can start their higher class studies.

Concept Building

Present approach of the students is strictly examination oriented and they prepare according to its weight age in the board examination. This methodology may give good results at state level but there are higher chances of failure in National level entrance examinations.

Conceptual study is only the key to success at National Level. To build the concept, our well qualified and experienced faculties use variety of teaching aids, digital classrooms, and have personal interactive sessions, through which foundation of the student becomes strong.

Comprehensive Study Material

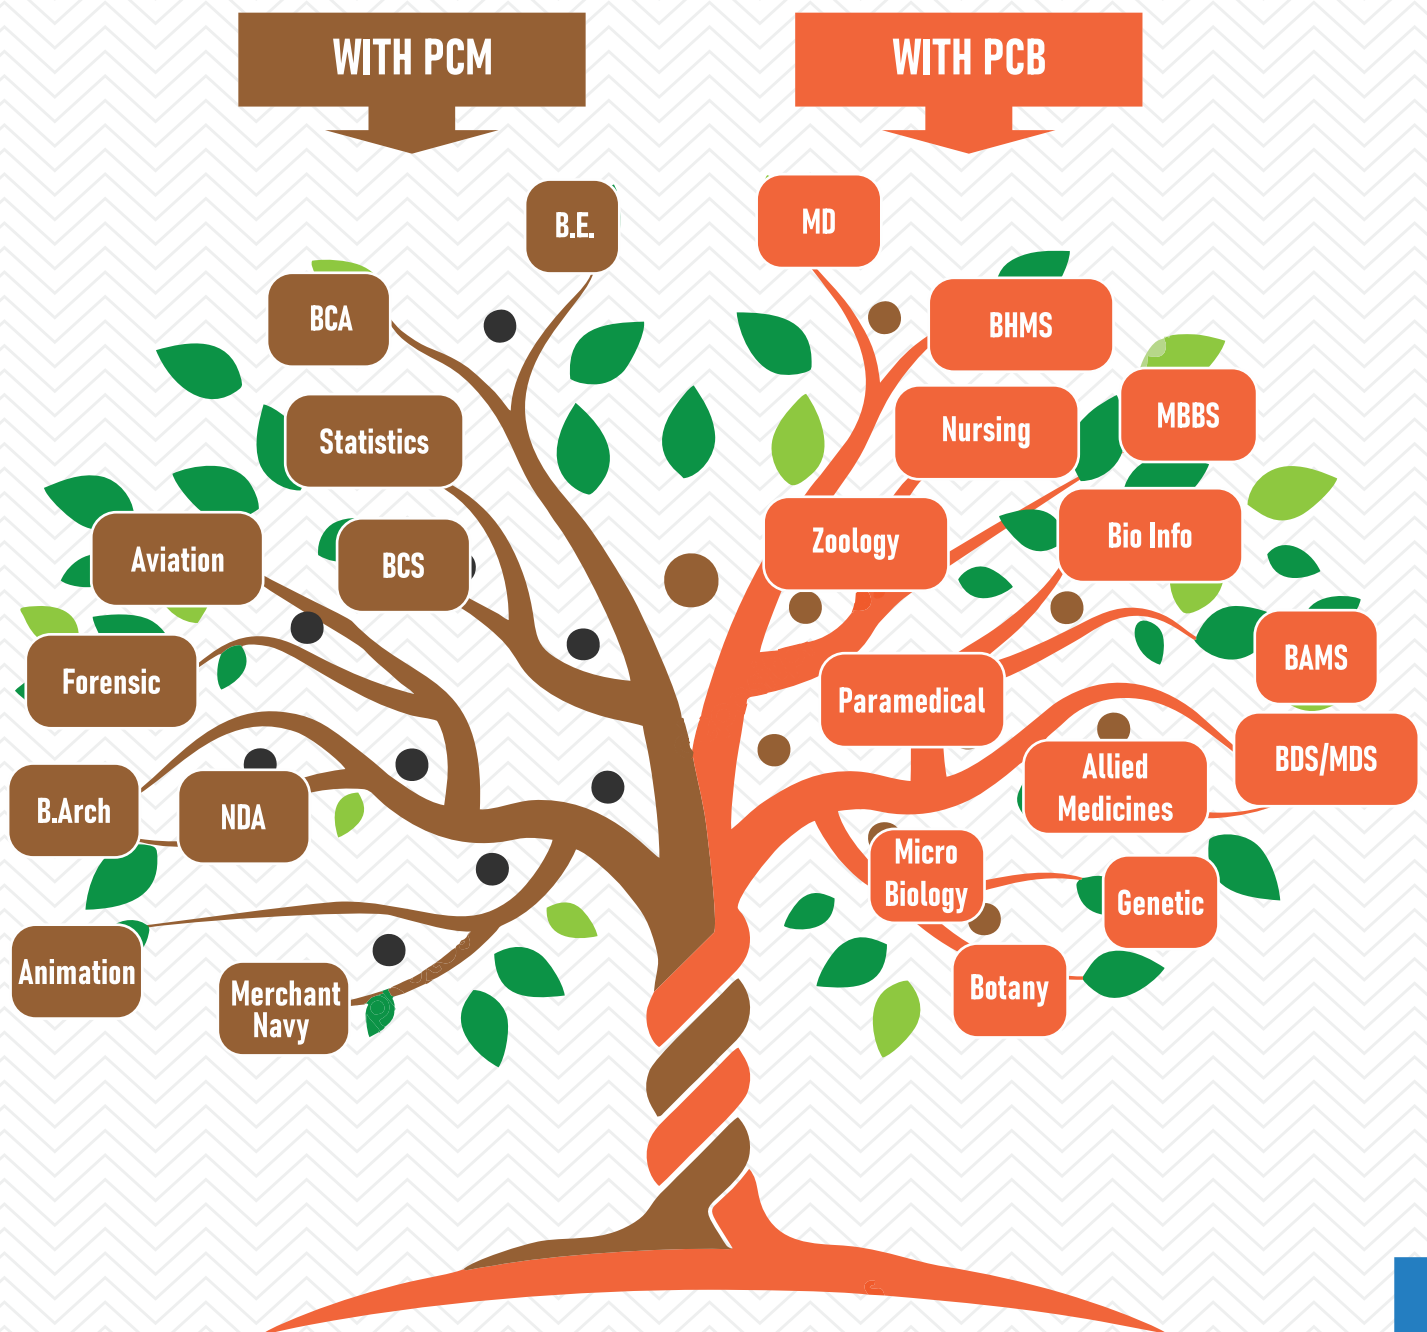

Once the concept of topic is clear the students get ready for advance preparation. Our teachers will provide them systematic study material for reference.

Practice and Continues Evaluation

Practice makes a man perfect. Our regular test series and continues evaluation system enable students to appear national level examination precisely with confidence.

ZEAL TRANSPORTATION FACILITY

Transport for daily commuting is a major worry. The College operates bus services from different locations so that students plying from any location within Pune have a near by pickup-cum-drop point to board the college bus to travel to and fro from college. This makes the transport hassle-free and ensures the students can focus on their studies. Parents also can have peace of mind while their wards are in the college and need not worry about their safety.
